---

Dear Esther Barajas-Ochoa:

Glyphosate should be abandoned completely. Here in California we should be doing things smarter. It is the good bacteria in the soil that contributes to its health, and the bio-update of nutrients. Stop using chemicals all together--as they destroy the good bacteria and ecosystems. And stop Glyphosate from being used on government property--it goes into our water supply and DIRECTLY causes Parkinson's disease and Cancers!!

Sincerely, Karen Blomquist of Davis, California
